FUNDING OPPORTUNITIES

Energy

Efficiency Maine HVAC, Lighting, and Refrigeration Project Incentives for Schools (UNTIL FUNDS ARE EXHAUSTED OR MAY 31, 2023)

Efficiency Maine is seeking applications for projects that will help schools accelerate the conversion to high-efficiency equipment. Schools can apply to receive purchasing incentives for heating, ventilation, and air conditioning (HVAC), lighting and refrigeration projects. The program is specifically focused on Maine’s public schools in smaller towns and districts.

Efficiency Maine will accept applications for the school retrofits through May 31, 2023, or until funding has been exhausted.

Credits to the [Community Resilience Partnership](#) Region 1 Coordinator Collaborative for compiling this information and allowing its distribution. Additional region-specific contributions by AVCOG.

[LEARN MORE](#)

Efficiency Maine Incentives for Small Municipality Retrofits HVAC, Lighting, and Refrigeration (CLOSES AUG. 31, 2023)

Efficiency Maine is seeking applications for heating, ventilation, and air conditioning (HVAC), lighting, and refrigeration projects in government facilities of small Maine municipalities and Tribes. Eligible applicants with qualifying projects receive enhanced purchasing incentives intended to accelerate the conversion to high-efficiency equipment in municipal and tribal government buildings across the state.

Belvedere Historic Preservation Energy Audit Grants (NO DEADLINE)

The Belvedere Historic Preservation and Energy Efficiency Grant Program invests in the preservation, restoration, and retrofitting of historic buildings in Maine. Energy audit grants are specifically for the cost of an energy audit of a historic building. Criteria: All applicants must meet the Maine Community Foundation's grant eligibility requirements. To receive a grant for an energy audit, the building must, be owned by a nonprofit organization or municipality or quasi-municipal entity, and be listed on the National Register of Historic Places, be determined eligible for listing on the Register, or be a contributing building in a nationally designated historic district. The maximum amount awarded for an energy audit is \$5,000. Energy Audit Grant applications may be submitted at any time. Requests will be considered as they are received and decisions will be made within 4 weeks of submission.

Flood Mitigation Assistance (CLOSES JAN. 27, 2023)

The Flood Mitigation Assistance (FMA) grant program makes federal funds available to states, U.S. territories, federally recognized tribal governments, and local governments to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured under the National Flood Insurance Program (NFIP). It does so with a recognition of the growing flood hazards associated with climate change, and of the need for flood hazard risk mitigation activities that promote climate adaptation, equity, and resilience with respect to flooding. These include both acute extreme weather events and chronic stressors which have been observed and are expected to increase in intensity and frequency in the future.

Federal Highway Administration Culvert Grants (CLOSES FEB. 6, 2023)

The Federal Highway Administration is accepting applications from states, tribes and local governments for grants of \$10,000 to \$200,000 to improve or restore anadromous fish passage

through the replacement, removal, repair, or improvement of culverts or weirs. Anadromous fish species are born in freshwater such as streams and rivers, spend most of their lives in the marine environment, and migrate back to freshwater to spawn. USDA RD Community Facilities Direct Loan & Grant (OPEN)

This program provides affordable funding through low interest direct loans, grants and a combination to develop essential community facilities in rural areas. Funds can be used to purchase, construct, and/or improve essential community facilities, purchase equipment and pay related project expenses.

What can the funds be used for?

- Public facilities such as town halls, courthouses, airport hangars or street improvements
- Community support services such as childcare centers, community centers, fairgrounds or transitional housing
- Public safety services such as fire departments, police stations, prisons, police vehicles, fire trucks, public works vehicles or equipment
- Educational services such as museums, libraries or private schools
- Utility services such as telemedicine or distance learning equipment
- Local food systems such as community gardens, food pantries, community kitchens, food banks, food hubs or greenhouses.

What are the funding priorities?

- Priority point system based on population, median household income
 - Small communities with a population of 5,500 or less
 - Low-income communities having a median household income below 80% of the state nonmetropolitan median household income.

Land Conservation

Land For Maine's Future 2023 Request for Conservation and Recreation Projects

Applicants should use the Project Readiness criteria to evaluate whether their project is ready for submission on page 16 of this [LMF Proposal Workbook](#). Eligible applicants include non-profit land conservation organizations, cities, towns, and state agencies.

Round A: Projects of Statewide Significance and Community Conservation Projects

Projects of Statewide Significance include lands with one or more resources that are rare and/or exceptional in Maine based on published report(s), database(s), or credible testimony and/or the recreational activity associated with the parcel will frequently and routinely attract users to travel to the land from across the state or even from out-of-state to the parcel.

DEADLINES:

January 13, 2023 - Inquiry Forms ([Appendix A](#)) due no later than 5:00 p.m.

March 24, 2023 - Final Proposals due no later than 5:00 p.m.

Round B: Working Forest Projects

Community Conservation Projects are projects of local or regional significance that promote one or more of the following: public outdoor recreational access to land and waters, including for underserved populations; public health; connection between conserved lands and population centers; local or regional agriculture; conservation of cultural and historical resources on undeveloped lands; protection of lakes, rivers or streams; conservation of fish or wildlife habitat; protection of public drinking water supplies; conservation of community forests; local economic development; opportunities for environmental learning; nonmotorized transportation options; or other priorities as determined by the board.

DEADLINES:

May 19, 2023 - Inquiry Forms due no later than 5:00 p.m.

August 4, 2023 - Final Proposals due no later than 5:00 p.m.

2023 Casco Bay Community Grants Program (CLOSES 9:00 AM Jan. 30, 2023)

Casco Bay Estuary Partnership encourages new partnerships and innovative projects that engage communities with Casco Bay and its watershed. Successful proposals will incorporate at least one of the elements from the 2016-2021 Casco Bay Plan. Proposals are welcome from educators, land trusts and other nonprofit organizations, and municipalities, especially in partnership with civic groups, municipal committees, churches, clubs, school groups and neighborhood associations. Region 3 towns include: Albany Twp, Auburn, Bethel, Durham, Greenwood, Norway, Poland, Otisfield, and Waterford.

Community Heart & Soul Seed Grant (NO DEADLINE, APPS REVIEWED MONTHLY)

The Community Heart & Soul Seed Grant Program provides \$10,000 in funding for resident-driven groups in small cities and towns to start the Community Heart & Soul planning model. Community Heart & Soul is a resident-driven process that engages the entire population of a town in identifying what they love most about their community, what future they want for it, and how to achieve it. Grant funding requires a \$10,000 cash match from the participating municipality or a partnering organization. Requires 1:1 cash match.

Inflation Reduction Act (IRA) Funding (Details Forthcoming)

The Inflation Reduction Act (IRA) has 18 different funding programs, 11 of which are directed to local governments. These programs will fund implementation of energy efficiency efforts, GHG

reduction strategies, and more. Most of the programs have special provisions for low-income and disadvantaged communities.

Programs for Local Governments:

- Greenhouse Gas Reduction Fund (the Green Bank) grants to reduce community and private sector GHGs
- Climate Pollution Reduction Grants to implement GHG reductions
- Latest and Zero Building Energy Code Adoption
- Improve Efficiency, Water, Resilience of Affordable Housing for projects that improve sustainability, efficiency & resilience
- Low Emissions Electricity Program funding for education, technical assistance, and outreach related to reducing GHGs from electricity production
- Clean Heavy-Duty Vehicles to cover up to 100% of costs for replacing gasoline powered heavy duty vehicles with zero-emissions ones
- Neighborhood Access and Equity Grant Program supports building or improving complete streets, multi-use trails, regional greenways, and transportation networks
- Investing in Coastal Communities and Climate Resilience
- Environmental and Climate Justice Block Grants

The Maine Municipal Association (MMA) is launching a series of workshops to help municipal officials, community leaders, and service providers learn more about BIL and IRA funding. View the workshops [listed in this document](#) or [DOWNLOAD THE WORKSHOP LIST](#)

Transportation

Electric Vehicle Charging Stations (DEADLINE EXTENDED TO JAN. 17, 2023)

Efficiency Maine is pleased to announce a new funding opportunity for Level 2 electric vehicle (EV) chargers that are available to the public in rural communities. The goal of this round of funding is to assist rural communities in the state's 14 northern counties (i.e., all counties except Cumberland County and York County), where public EV chargers are less common, to enhance those communities' capacity to attract commerce and tourism as EVs become the dominant form of transportation. Developing comprehensive coverage of public EV chargers throughout the state will also encourage EV adoption in all parts of Maine.

This opportunity will be offered on a first-come, first-served basis and local governments, businesses, and nonprofits in eligible rural towns are encouraged to apply on the Efficiency Maine website. Quick read 1 page program [factsheet](#).

[LEARN MORE](#)

Tactical Urbanism Lightning Grants (NO DEADLINE)

Projects may be transportation-focused (road diets, bike lanes, traffic calming, signage) or community enhancement (park or plaza activation, art installations, pop-up parks, or other public engagement ideas). Formalize or enhance a neighborhood trail link or shortcut. Projects are for up to \$1,000 and are awarded on a rolling basis. Projects could include: Install a protected bike lane, Paint a new crosswalk, Activate an underutilized public space, Activate a

vacant lot, Reallocate underutilized road space for public life, Arrow travel lanes to slow vehicular speed, and Add stop signs to improve intersection safety.

[LEARN MORE](#)

Workforce Transportation Funding Opportunity (NO DEADLINE)

The Workforce Transportation Pilot program, an initiative of Governor Mills' Maine Jobs & Recovery Plan, to pursue and develop transportation solutions that connect workers with employers across Maine. The \$5M program will provide competitive grants of up to \$750,000 to local and regional partnerships to pilot ways to connect workers and employers through ridesharing, vanpools, and other subsidized transit options.

[LEARN MORE](#)

Maine DOT Village Partnership Initiative (NO DEADLINE)

The Village Partnership Initiative is designed to be available to all willing communities that have or can agree upon a local vision. Village projects can vary from small, spot improvements to large, once-in-a-lifetime investments if we can successfully partner to access federal discretionary funds through earmarks or BIL grants. Depending upon the vision of each individual municipality, we can look to make investments in the lower-speed areas where people meet, shop, and do business. These village areas need to be built on a human scale: walkable, bicycle-friendly, and business-friendly.

These projects can range from gateway treatments, marking the beginning of a village area to help slow traffic, to improving pedestrian crossings and ADA compliance. They may also be used to enhance on-street parking, improve sidewalks, etc.

- Municipal Property Valuation less than \$150M, 70% State, 30% Municipal
- Municipal Property Valuation a\$150M to \$350M, 60% State, 40% Municipal
- Municipal Property Valuation >\$350M, 50% State, 50% Municipal

The maximum amount of the agreement will be dependent on the complexity of the project and the amount of design needed to be competitive on the federal level. These are complex projects and will take several years to develop.

Bipartisan Infrastructure Law Webinar Series – Opportunities for Local Communities

Virtual

January 5 to March 2, 2023

The Maine Municipal Association and the Governor's Infrastructure Implementation Committee invite you to join representatives from the State for a series of informational webinars on funding and program opportunities for Maine communities from the Bipartisan Infrastructure Law (BIL). The series will be of particular relevance to officials from municipal, county, and tribal governments in Maine, as well as staff from regional planning organizations and other local technical assistance groups. Each session will cover a category of BIL investment, review current projects, explain funding processes, highlight available and upcoming BIL programs, and offer opportunities for Q&A.

BIL Webinar #1: Transportation

Thursday, January 5, 2023, 1:00 PM – 2:00 PM

Hear about opportunities to partner with MaineDOT To support important investments in Maine's transportation systems. [REGISTER HERE](#)

BIL Webinar #2: Broadband & Technology

Thursday, January 26, 2023, 1:00 PM – 2:00 PM

Hear about BIL opportunities to expand the interconnection and economic viability of Maine communities through improved, robust, affordable and universally available high speed internet (broadband) and secure information systems. [REGISTER HERE](#)

BIL Webinar #3: Energy Programs & Building Efficiency

Thursday, February 16, 2023, 1:00 PM – 2:00 PM

Hear about BIL opportunities to improve energy efficiency in buildings and enable the expansion of affordable, clean energy generation and transmission networks. [REGISTER HERE](#)

BIL Webinar #4: Resilience & Environmental Protection

Thursday, March 2, 2023, 1:00 PM – 2:00 PM

Hear about BIL programs to strengthen the state's preparedness for storm events, flooding, and wildfires; to build resilience of transportation networks, drinking water and wastewater systems; to mitigate contaminants and pollution; and to improve natural capacity of watersheds and ecosystems. [REGISTER HERE](#)

Community Resilience Partnership: Building Stronger Communities Online Learning Series

Virtual and Limited Hybrid Options

What can my town do with \$50,000? Towns enrolled in the Community Resilience Partnership are provided technical assistance to apply for a myriad of state, federal, and philanthropic grants for resiliency projects. This series will cover the basics of joining the partnership, share experiences from towns that have gotten funding for their projects, and inform you of upcoming grant opportunities and resilience tools. The aim is to bring together new and existing program participants to inspire and connect projects and grants, and help towns strategize to leverage the most out of upcoming resiliency grant opportunities. Who knows you may be asking yourself what you can do together by the end of the series?!

Building Stronger Communities - Funding Projects Into the Future

Virtual and in-person at KVCOG, AVCOG, CEBE

Tuesday, January 10, 10:00 -11:00 am

Towns enrolled in the Community Resilience Partnership are provided technical assistance to apply for a myriad of state, federal, and philanthropic grants for resiliency projects. In this

session, we will hear from communities enrolled in the partnership as to how they were able to leverage multiple funding sources for a project. Examples include Skowhegan's downtown plan as it relates to active transportation, land use, and land conservation, and Greenwood's historic building preservation and energy upgrade project. This session will also prepare towns in applying for the upcoming CAG to open in March.
